

MINI GOLF SCORECARD PWA

Screen & Element Guide

A structural wireframe of every screen — the element inventory and rough arrangement — with each interface element numbered and spec'd. It tells you **what each screen contains and what art each element needs**, so nothing is missed when you theme the app.

14 screens

Wireframe layout

Numbered callouts

Per-element specs

These wireframes are not the design. They show structure only — no colors, type, icons, or materials are implied, and the current app art is **not** a reference to match (much of it is placeholder and wrong). Boxes and positions are schematic and **not prescriptive**: treat sizes and arrangement as approximate. You define the actual look; mark up anything here that's wrong.

How to read each page

1. The **wireframe** is a labeled skeleton of one screen — every element as a plain box saying what it is and roughly where it sits.
2. Numbered **callouts** map to the **spec table**: each element's role, its interaction/states, the **theming hooks** it keys to (accent / course-color variables), and the **art it needs**.
3. **Light & dark**: the app has no fixed default — it follows the device's setting. Design every element for **both**, clearing contrast on each ($\geq 4.5:1$ text / $\geq 3:1$ large & UI).
4. **Constraints to honor**: comfortable tap targets ($\geq \sim 44\text{px}$ hit area), device safe areas (notch / home indicator), and those contrast minimums. Everything else — sizes, radii, type, materials, icons — is yours to define.
5. Deeper token / motion / skin reference lives in `docs/art-spec.md`; the live element inventory is the `/style` route.

1. Home /

Landing hub — pick a course, resume a round, reach maps / rules / leaderboard / install.

WIREFRAME · SCHEMATIC

#	ELEMENT	ROLE & WHERE	INTERACTION / STATES	THEMING HOOKS	ART / ASSETS NEEDED
1	Header control pills	Global, top of most screens — light/dark + mute toggles	two independent toggles; each shows the state it switches TO	own pill surface; glyph	pill background + a mode icon pair + a sound icon pair
2	Hero mark	Brand identity, top of Home	animates on arrival (a small flourish)	—	the brand hero mark
3	Location bar	Row → Location Picker	tappable; shows current venue	row surface	a location/pin marker + the row surface
4	Resume-round card	CTA → resume the in-progress round	only present when a round is live; draws a standing glow	--glow = course accent	card surface + the standing-glow treatment
5	Course tiles	Grid → each course's map/start	tappable; enters with a staggered motion	--tile-accent / --puck-accent per course	tile surface + a course marker/crest per course (the puck)
6	Secondary menu	Ghost-button stack → hunt / fun / rules / leaderboard / install	tappable rows; Install hidden when already installed	—	ghost surface + a leading icon per row

2. Location Picker /locations

Choose the venue (manual or GPS); scopes which courses show.

#	ELEMENT	ROLE & WHERE	INTERACTION / STATES	THEMING HOOKS	ART / ASSETS NEEDED
1	"Use my location"	GPS-detect button (only if geolocation is available)	disabled + progress label while locating	—	a location/GPS icon + button surface
2	Status message	Detect feedback	appears on progress / error	(error emphasis)	—
3	Location row	One per venue → selects it	selected vs unselected	per-location accent tints the marker chip	a location marker + row surface
4	Trailing marker	Row right edge	"Current" label (selected) or forward chevron	per-location accent	a chevron icon

3. Course Picker /new

Pick which course at the current location to score.

WIREFRAME · SCHEMATIC

#	ELEMENT	ROLE & WHERE	INTERACTION / STATES	THEMING HOOKS	ART / ASSETS NEEDED
1	Player-count selector	1-4 buttons	selected vs unselected	—	selected/unselected states
2	Tag input	Arcade text field, one per player	empty (placeholder) / filled / invalid	an arcade/mono type role	field surface; the arcade type face
3	Invalid-tag state	On a bad tag	red border + inline error	(error emphasis)	error treatment
4	Start round	Primary CTA → play	disabled until the roster is valid; busy label while starting	--accent	the primary button surface

5. Course Map

/courses/:id/map

course-tinted

Opening course screen — the map, and a large “tap to begin” target that starts the round.

#	ELEMENT	ROLE & WHERE	INTERACTION / STATES	THEMING HOOKS	ART / ASSETS NEEDED
1	Course map	Full-bleed map; the whole panel starts the round	tappable	the screen washes toward the course color	a top-down hole map per course (or a fallback panel with the course marker); keep center/edges calm for the overlay
2	“Tap to begin” prompt	Overlay call-to-action	pulses	—	must stay legible over the map art in both light and dark

6. Scorecard (play screen)

/play/:clientId

course-tinted

The core loop — score one hole at a time for every player; each edit persists instantly.

WIREFRAME · SCHEMATIC

#	ELEMENT	ROLE & WHERE	INTERACTION / STATES	THEMING HOOKS	ART / ASSETS NEEDED
1	TopBar shortcuts	Scavenger hunt · Challenge spinner · “Holes” toggle	the Holes toggle reveals a hole-jump grid	—	a hunt icon + a spinner icon
2	Hole header / hole-jump grid	Hole title; toggled grid of hole keys	current / done / unplayed key states	--accent marks the current hole	the three key states
3	Par medallion	Par read-out disc	—	par numeral in the course ink	the disc surface
4	Player tag	Player identity chip on each row	empty shows a placeholder	--tag-accent	the tag surface (contrast-checked on any accent)
5	Score well	Recessed score read-out	reacts to each stroke edit; empty when unscored	—	the recessed-well surface
6	± stepper keys	Add / remove a stroke	press feedback; disabled at floor and at the stroke cap	—	the key surface + the + / – marks
7	Hole navigation	Prev / Next — or Finish on the last hole	disabled until the hole/round is complete; Finish is the completion action	--accent on Finish	ghost + primary surfaces

7. Summary (final scorecard)

/play/:clientId/summary

course-tinted

Celebrates the winner, shows standings + hole-by-hole grid, syncs to the leaderboard.

WIREFRAME · SCHEMATIC

#	ELEMENT	ROLE & WHERE	INTERACTION / STATES	THEMING HOOKS	ART / ASSETS NEEDED
1	Winner hero	Celebration card	enters with a celebratory motion; a “tied” variant	--glow accent; winner tag in course ink	a trophy/celebration mark + the hero surface
2	Standings row	One per non-winner	staggered entrance	rank + arcade tag in course ink	the row surface
3	Nine-grid table	Hole-by-hole scores, Front & Back	cells signal under / over / at par; empty cell	--score-under / --score-over	the table surface + the score-signal colors
4	Sync note	Leaderboard save status	synced / failed / saving / offline	(failure emphasis)	a confirmation tick
5	Action buttons	View leaderboard (secondary) · Done (primary)	—	--accent	ghost + primary surfaces

8. Rules /rules

Static, offline general rules + optional per-course notes. Read-only.

WIREFRAME · SCHEMATIC

#	ELEMENT	ROLE & WHERE	INTERACTION / STATES	THEMING HOOKS	ART / ASSETS NEEDED
1	Section heading	“General” / “Course notes”	—	muted	—
2	Numbered rule list	General rules	—	—	list-number treatment
3	Course-note card	One tinted card per course	—	washes toward the course accent; name + marker + bullets in course ink	the card surface + the course marker

9. Install /install

PWA install landing (QR-code target); shows the right path per platform.

WIREFRAME · SCHEMATIC

#	ELEMENT	ROLE & WHERE	INTERACTION / STATES	THEMING HOOKS	ART / ASSETS NEEDED
1	Hero	Brand mark + heading	—	—	the brand mark
2	Branch card	One of four states: already-installed (with an Open button), iOS steps, native-prompt button, or generic steps	platform-dependent; a dismissed-prompt retry hint	—	the card surface
3	Numbered step + warning	Instruction steps and a caveat box	—	—	step-number badges + the small platform glyphs referenced (Share / add-to-home / browser-menu)

10. TV Leaderboard /tv

Live high-score board (polls periodically); highlights the just-played round on arrival.

WIREFRAME · SCHEMATIC

#	ELEMENT	ROLE & WHERE	INTERACTION / STATES	THEMING HOOKS	ART / ASSETS NEEDED
1	Period tabs	Day / Week / Month / All	active vs inactive	—	tab states
2	Rank / tag	Row identity	—	tag in course ink	the arcade type face
3	“You” pill + row highlight	Marks your rows	only on your rows	a highlight/ring accent	the pill + row-highlight treatment
4	Standings row	One per score	entrance stagger; error / empty / loading states	—	the row surface

11. Scavenger Hunt

/hunt

Snap-a-photo hunt; a vision model verifies each find. Gated on an in-progress round.

WIREFRAME · SCHEMATIC

#	ELEMENT	ROLE & WHERE	INTERACTION / STATES	THEMING HOOKS	ART / ASSETS NEEDED
1	"Playing as" selector	Player chips	selected (ring) vs dimmed	--tag-accent	tag surface + selected-state treatment
2	Item hint / count / check	On each item	hint show/hide toggle; xN count or a found check	—	hint, count, and check icons
3	Snap button	Photo capture (opens the camera)	label cycles Snap / Snap another / Checking / Found (locked)	—	a camera icon + button surface
4	Result banner	Verify outcome	verified / flagged (photo-of-screen) / rejected; plus a load-error box	(flag/error emphasis)	banner treatments
5	Item card	Per find	found vs not-found; a gated empty state when no round is active	—	the card surface

12. Arcade Putt /putt

Playable canvas mini-golf — drag-to-aim; 9-hole or endless. Offline.

WIREFRAME · SCHEMATIC

#	ELEMENT	ROLE & WHERE	INTERACTION / STATES	THEMING HOOKS	ART / ASSETS NEEDED
1	Status header	Hole / par / strokes	course vs endless mode; a mode-picker precedes play	—	—
2	Canvas playfield	The game (aim by dragging)	aim / rolling / splash / sunk phases	aim-power color ramp	playfield background + all sprites (ball, cup + flag, bumpers, greens, hazards, splash) and the aim/power markers — drawn into the canvas
3	Play buttons	Next / See scorecard (primary) · Reset / End run (secondary)	mode-dependent	--accent	primary + ghost surfaces; a per-hole result set on the summary

13. Fun Zone hub /fun

Grid landing routing to every mini-game. Each tile = an icon + title.

WIREFRAME · SCHEMATIC

#	ELEMENT	ROLE & WHERE	INTERACTION / STATES	THEMING HOOKS	ART / ASSETS NEEDED
1	Activity tile	One per game → its route (11 games)	entrance stagger; press feedback	accent-tinted per tile	the tile surface
2	Activity icon	Leading mark on each tile	—	tinted to the tile accent	one designed icon per activity (11 total)

14. Minigame shell (covers the 8 canvas games)

/fun/skeeball · /fun/bowling · /fun/karts · /fun/airhockey · /fun/bumper · /fun/boats · /fun/axe · /fun/batting

Shared shell for every canvas game — HUD row, canvas playfield, hint line, game-over screen.

WIREFRAME · SCHEMATIC

#	ELEMENT	ROLE & WHERE	INTERACTION / STATES	THEMING HOOKS	ART / ASSETS NEEDED
1	HUD counter row	Per-game counters / score / timer	labels vary by game; a timer can signal time pressure	—	—
2	Canvas playfield	The game itself	aim / play / result; impact + shake feedback	—	per-game background + sprites (ball, puck, kart, target, pins, axe, bumper) as sprite sheets / SVGs the canvas rasters
3	Game-over overlay	Shared result screen	enters with a celebratory motion	--accent on Play again	a result mark per game + the primary button surface
